Daemonology

Study

Throughout the course of our adventures. We decided to venture off into the study of Daemons. We all know they are powerful, but we truly do not understand how powerful.

So begins the course of study. Summoned Daemons are named upon entry to our world. Once a fully completed list of names has been attained more work will be completed to divulge just just how powerfull certain Daemons are, and if their names lend them certain power.

I would like to thank Gargish Dragon, Yew town Council, Atlantic Shard for this input.
